 Creation Date: May 7, 2015

Understanding the make-up of your area

	Area	Base
Total Households	5,373	27,112,349
Total Population	12,992	63,115,915
Total Males	6,508	31,109,048
Total Females	6,484	32,006,867

The current year estimates show a total resident population of **12,992** in the study area, compared to **63,115,915** in the base selection. When looking at the population of households there are **5,373** in your area and **27,112,349** in your base selection. This was split by **49.90%** of the population being female and **50.10%** being male in the study area.

Source: Experian Current year estimates (Mid-year 2012).

Understanding who lives in your area

Age Bands	Area	Base	Index*
Under 15	2,657	10,970,564	67
15-19	762	3,786,773	98
20-24	628	4,365,284	124
25-34	1,603	8,551,784	91
35-44	2,131	8,456,376	110
45-54	2,014	8,867,221	90
55-64	1,343	7,255,971	83
65+	1,854	10,861,942	83

Source: Experian Age and Gender Estimates (2012).

Chart explanation: The chart above represents the Index* value. This indicates the over or under representation of the area selection relative to the base.

The highest proportion fell into age band **Under 15** with a count of **2,657** representing **20.45%** in the study area. The smallest proportion was in age band **20-24** with a count of **628** which represents **4.83%**. In the study area the most over represented age band in comparison to the base selection is **35-44** with an index value of **122**. The band that is most under represented is **20-24** with an index of **70**, where an index* of 100 represents the national average.

*An index of 100 indicates that the variable shown is represented at the same level in the area as it is across the whole area (base). An index of 200 would show that it has twice the representation.

Understanding the Ethnic mix

Ethnic Mix	Area	Base	Index*
White	11,916	52,481,255	91.91
Mixed	92	673,743	1.18
Asian or Asian British	72	2,328,784	4.08
Black or Black British	51	1,147,400	2.01
Chinese or Other	31	472,190	0.83

Source: ONS Census Data (2001).

Chart explanation: The chart above represents the Index* value. This indicates the over or under representation of the area selection relative to the base.

The ONS data shows the ethnic make up of your area is as follows: Compare this to your base ethnic diversity as follows:

97.98% White	91.91% White
0.76% Mixed	1.18% Mixed
0.59% Asian or Asian British	4.08% Asian or Asian British
0.42% Black or Black British	2.01% Black or Black British
0.25% Chinese or Other	0.83% Chinese or Other

In the study area the largest ethnic group is **White** taking up **97.98%** of the population with a count of **11,916**. This is in comparison to the selected base with **91.91%** of the population being **White**. The smallest ethnic representation in the study area was **Chinese or Other** with a count of **31**, compare this to the base selection where the smallest group was **Chinese or Other** with a count of **472,190**.

Understanding the Social Grade

Social Grade	Area	Base	Index*
AB Higher & intermediate manage/admin/prof	2,712	11,697,217	116
C1 Supervisory, cleric, junior manage/admin/prof	2,882	12,741,084	107
C2 Skilled manual workers	2,137	9,977,173	90
D Semi-skilled and unskilled manual workers	1,230	6,836,899	59
E On state benefit, unemployed, lowest grade workers	1,058	8,983,966	59

Source: Experian Current Year Estimates based on ONS Census Data (2012).

Chart explanation: The chart above represents the Index* value. This indicates the over or under representation of the area selection relative to the base.

*An index of 100 indicates that the variable shown is represented at the same level in the area as it is across the whole area (base). An index of 200 would show that it has twice the representation.

Within your area social grade **C1** forms the largest proportion with **2,882** people falling into this group, which is **28.76%** of the overall distribution. The smallest proportion falls into grade **E** with a count of **1,058** taking up **10.56%**. When comparing this to the selected base the most over represented grade is **AB** with an index* count of **116**, whereas the most under represented group is **E** with an index count of **59**.

Understanding the Economic Activity

Economically Active		Area	Base	21	100	141
	Employee	5,553	23,599,501			105
	Self employed with employees	273	1,369,452	88		
	Self employed without employees	753	2,454,603			
	Unemployed	127	2,081,789			
	Full-time students	219	1,260,418	77		

Economically Inactive		Area	Base	55	100	147
	Retired	1,023	6,217,979			109
	Student	292	2,528,733	77		
	Looking after home/ family	628	2,908,572			
	Permanently sick/ disabled	224	2,483,308			
	Other	174	1,413,384	82		

Source: Experian Current Year Estimates based on ONS Census Data (2012).

Chart explanation: The chart above represents the Index* value. This indicates the over or under representation of the area selection relative to the base.

Economically Active

Economically Inactive

Economic activity within the study area shows that **42.74%** of the population are employed, this is **5,553** people, compare this to your base where **37.39%** are employed. The smallest economically active group is **Unemployed** representing **0.98%**, compare this to the selected base where this group represents **3.30%**. When analysing index* values the most over represented group is **Self employed without employees** with an index of **136**, taking up **5.79%**.

When considering economic inactivity the largest proportion in the study area belongs to the **Retired** group with a count of **1,023** representing **7.87%**. The smallest inactive group is **Other** with **174** which is **1.34%**. When looking at the index values the group that is most over represented is **Looking after home/ family** with an index of **143**, representing **4.83%**.

*An index of 100 indicates that the variable shown is represented at the same level in the area as it is across the whole area (base). An index of 200 would show that it has twice the representation.

Understanding what type of households are in your area

Dwelling Type	Area	Base	50	100	182
Detached	1,646	4,831,803			
Semi-detached	1,294	6,637,289		101	
Bungalow	507	2,222,919			118
Terraced (including end-terrace)	915	7,114,420	67		
Flat, maisonette or apartment	451	4,163,738			

Source: Experian ConsumerView Household Directory 2011.

Chart explanation: The chart above represents the Index* value. This indicates the over or under representation of the area selection relative to the base.

Tenure	Area	Base	41	100	123
Owned (HH)	3,920	16,724,882			
Social Rented (HH)	433	4,885,741			
Private Rented (HH)	366	2,345,327		80	

Source: ONS Census Data (2001).

Chart explanation: The chart above represents the Index* value. This indicates the over or under representation of the area selection relative to the base.

1,294 households within your area live in a **Semi-detached** dwelling, this is **26.89%**. Compare this to a figure of **6,637,289** in your base making up **26.58%**. The smallest number of households live in a **Terraced (including end-terrace)** dwelling, this is **451** households and makes up **9.37%**. When analysing the index* figures, we can deduce that the most over represented dwelling type is **Detached** with a figure of **177**, this makes up **34.19%** in the study area.

When considering the tenure of households we can see that the largest proportion are **Owned** with a figure of **3,920** making up **81.70%**. The smallest amount fall into the **Private rented** at **7.62%**. When looking at the index figures the most over represented tenure type is **Owned** with an index of **120**, **81.70%** of households fall into this category in the study area.

*An index of 100 indicates that the variable shown is represented at the same level in the area as it is across the whole area (base). An index of 200 would show that it has twice the representation.

Understanding Household Income

Household Income	Area	Base	58	100	195
£14,999 or Less	697	5,441,958			
£15,000 to £19,999	240	1,924,494			
£20,000 to £29,999	799	4,914,874	84		
£30,000 to £39,999	806	3,885,649		108	
£40,000 to £49,999	577	3,041,965	98		
£50,000 to £59,999	471	1,858,483		131	
£60,000 to £69,999	429	1,176,779			
£70,000 to £99,999	538	1,647,083			170
£100,000 to £149,999	200	797,626		130	
£150,000 or Over	55	281,258		102	

Source: Income Band Distributions (2012).

Chart explanation: The chart above represents the Index* value. This indicates the over or under representation of the area selection relative to the base.

937 households within your area have an income of **£19,999 or less**, this forms **19.46%** of the overall distribution. The smallest count is **55** and these fall into household income band **£150,000 or Over** making up **1.15%**. When using your base as a comparison the biggest majority fall into the income band **£14,999 or less** which makes up **21.79%** of the overall view. When using index* figures as a guide we can see that the income band **£60,000 to £69,999** is over represented making up **9%** with an index of **189**, the most under represented banding is **£15,000 to £19,999** with a figure of **65** making up **5%** of the distribution.

Index* - An index of 100 indicates that the variable shown is represented at the same level in the area as it is across the whole area (base). An index of 200 would show that it has twice the representation.

Understanding the residential profile by Mosaic UK

Explanation of Mosaic UK

Mosaic UK classifies all consumers in the United Kingdom by allocating them to one of 67 Types and 15 Groups. The 15 Groups are shown below as a profile. They provide a summary of the detailed picture painted of UK consumers in terms of their socio-economic and socio-cultural behaviour.

Mosaic UK Group Short	Area	Base	-26	100	549
A Alpha Territory	112	2,215,050	25		
B Professional Rewards	1,320	5,488,431		117	
C Rural Solitude	49	2,794,015	8		
D Small Town Diversity	1,271	5,517,643		112	
E Active Retirement	397	2,282,560	84		
F Suburban Mindsets	3,107	7,846,414			192
G Careers and Kids	3,829	3,553,190			
H New Homemakers	377	2,735,186	67		
I Ex-Council Community	506	6,208,842	40		
J Claimant Cultures	0	3,752,716	0		
K Upper Floor Living	0	3,133,950	0		
L Elderly Needs	425	2,433,392	85		
M Industrial Heritage	1,321	4,865,836		132	
N Terraced Melting Pot	110	4,576,202			
O Liberal Opinions	71	5,305,677	7		
Totals	12,992	63,115,915			

Source: Experian Mosaic UK Classification (2012).

Chart explanation: The chart above represents the index* value. This indicates the over or under representation of the area selection relative to the base.

The largest majority belong to Mosaic Group **G Careers and Kids** with a count of **3,829** representing **29.47%** of the overall distribution, in comparison to the base where **5.63%** fall into this group. The smallest proportion fall into Mosaic Group **J Claimant Cultures** with a count of **0** which represents **0.00%**. The index* figures indicate that the most over represented group is **G Careers and Kids** taking up **29.47%**, in contrast the most under represented group is **J Claimant Cultures** which takes up **0.00%**.

*An index of 100 indicates that the variable shown is represented at the same level in the area as it is across the whole area (base). An index of 200 would show that it has twice the representation.

Understanding the top three Mosaic UK Groups

29.47% - G Careers and Kids

Families with young children where both parents are likely to earn solid incomes providing for a comfortable modern home.

- Families
- Young children
- Good incomes
- Comfortable homes
- Home life balance
- Ethical products
- Consumer credit
- Reliant on cars
- Internet and telephone banking
- New buildings

23.92% - F Suburban Mindsets

Maturing families on mid-range incomes living a moderate lifestyle in suburban semis.

- Manual and white collar
- Married
- Middle age
- Children
- Leafy suburbs
- Comfortable affordable housing
- Home improvement
- Family life
- Industrious
- Mainstream brands

10.17% - M Industrial Heritage

Families and couples owning affordable older style housing in communities historically dependent on manufacturing.

- Traditional
- Married
- Below average incomes
- Approaching retirement
- Outgrown homes
- Personal responsibility
- Manufacturing industries
- Careful with money
- Reliant on cars
- Manual skills

What is the daytime population profile by Mosaic UK

Explanation of Mosaic UK

Mosaic UK classifies all consumers in the United Kingdom by allocating them to one of 67 Types and 15 Groups. The 15 Groups are shown below as a profile. They provide a summary of the detailed picture painted of UK consumers in terms of their socio-economic and socio-cultural behaviour.

Mosaic UK Group	Area	Base	0	100	407
A Alpha Territory	136	1,801,226			
B Professional Rewards	1,263	4,557,882		158	
C Rural Solitude	260	2,314,454	64		
D Small Town Diversity	985	4,647,552		121	
E Active Retirement	246	2,028,125	69		
F Suburban Mindsets	1,803	6,261,027		164	
G Careers and Kids	1,865	2,743,200			
H New Homemakers	374	2,203,602		97	
I Ex-Council Community	417	4,844,785			
J Claimant Cultures	28	2,724,125			
K Upper Floor Living	39	2,425,084			
L Elderly Needs	268	2,113,631	72		
M Industrial Heritage	903	4,004,192		129	
N Terraced Melting Pot	173	3,542,417			
O Liberal Opinions	151	4,641,553			
Totals	8,911	50,852,855			

Source: Experian Mosaic UK Daytime Classification (2012).

(Table displays population age 16 and over.)

Chart explanation: The chart above represents the Index* value. This indicates the over or under representation of the area selection relative to the base.

The largest number belong to Mosaic Group **G Careers and Kids** with a count of **1,865** representing **20.93%** of the overall distribution, in comparison to the base where **5.39%** fall into this group. The smallest proportion fall into Mosaic Group **J Claimant Cultures** with a count of **28** which represents **0.32%**. The index* figures indicate that the most over represented group is **G Careers and Kids** taking up **20.93%**, in contrast the most under represented group is **J Claimant Cultures** which takes up **0.32%**.

*An index of 100 indicates that the variable shown is represented at the same level in the area as it is across the whole area (base). An index of 200 would show that it has twice the representation.

Will the population of the area grow or decline?

1 Miles: Red Lion - 1 mile, Brackley, NN137AB		UK
Population Projection		
Population projection 2017	14,068	65,254,712
Female Population projection 2017	6,996	33,000,191
Male Population projection 2017	7,072	32,254,521
Projected change from 2012	1,076	2,138,797
Population projection 2022	15,153	67,449,523
Female Population projection 2022	7,547	34,048,161
Male Population projection 2022	7,606	33,401,362
Projected change from 2012	2,161	4,333,608
Population projection 2027	16,210	69,503,650

Gender Breakdown 2017

Gender Breakdown 2022

Gender Breakdown 2027

Gender Breakdown 2032

% Population Change (Male)

% Population Change (Female)

For 2012 the total population estimate is **12,992**, this is divided into **50.10%** male and **49.90%** female. By 2017 the population is expected to have changed to **14,068**, this is a projected change of **8.28%** over five years, and the gender split is predicted to be **49.73%** female and **50.27%** male. In the five years to 2022 the population is estimated to change to **15,153**, this is a further **7.71%** change, and is expected to be divided into **49.81%** female and **50.19%** male. By 2027 the population is expected to be **16,210**, a further change of **6.98%**, and split into **49.69%** female and **50.31%** male. By 2032 the population is expected to be **17,139**, a change of **5.73%**, and divided into **49.66%** female and **50.34%** male.

Understanding Demographics

Data Explanation Page - **Population Projections**

Population change is an important element in fluctuations in consumer demand. Our population projections give a valuable insight into future demand in local areas, enabling you to predict future business performance, and plan accordingly.

The data is particularly useful if you are targeting specific age/gender ranges - for example, child care nurseries can find sites where the number of children is set to increase, and football clubs can target areas expecting growth in the number of teenagers.

Projections of residential population are available for each year from 2012 to 2032. These are split by gender and 18 age bands.

Understanding Demographics

Data Explanation Page - **Mosaic UK**

Data Components

Classification Data

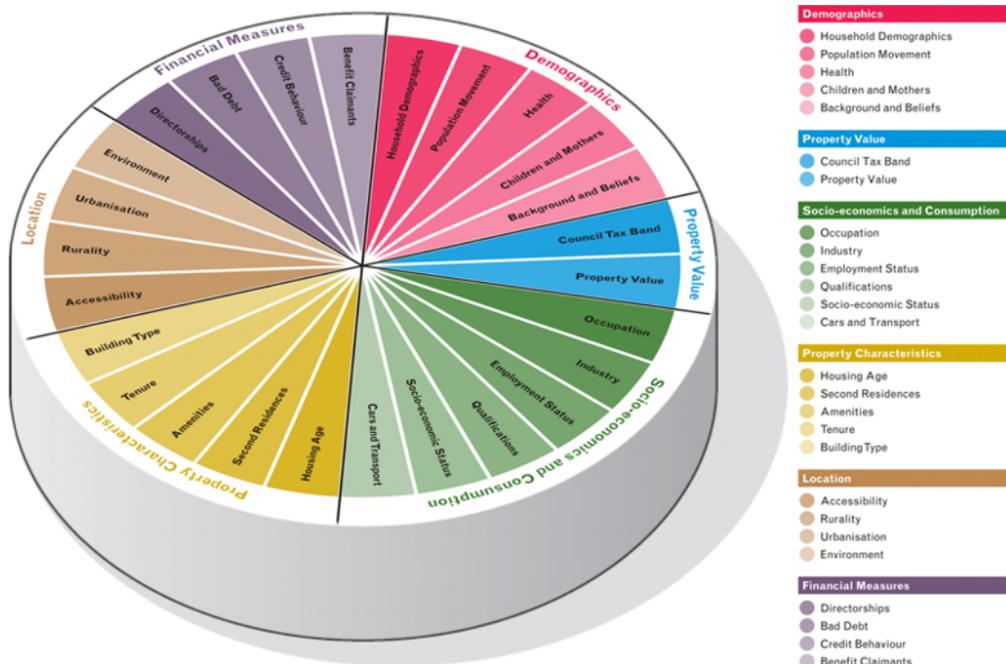

62% of the information used to build Mosaic UK is sourced from a combination of data that includes Experian's UK Consumer Dynamics Database, which provides consumer demographic information for the UK's 47 million adults and 24 million households. The database is built from an unrivalled variety of privacy-compliant public and Experian proprietary data and statistical models. These include the edited Electoral Roll, Council Tax property valuations, house sale prices, self-reported lifestyle surveys and other compiled consumer data. The remaining 38% of the data is sourced from the Census current year estimates that Experian has produced by utilising its wealth of data assets to track change in the key 2001 Census variables. All of the information used to build Mosaic is continuously updated. This enables Experian to verify and update the classification twice a year.

Descriptive Data

The key to understanding the behaviour of each Mosaic UK type is the richness of the descriptive data. Experian owns and sources a number of authoritative sources of media and market research that allows us to build a rich picture of the nation's social-cultural diversity.

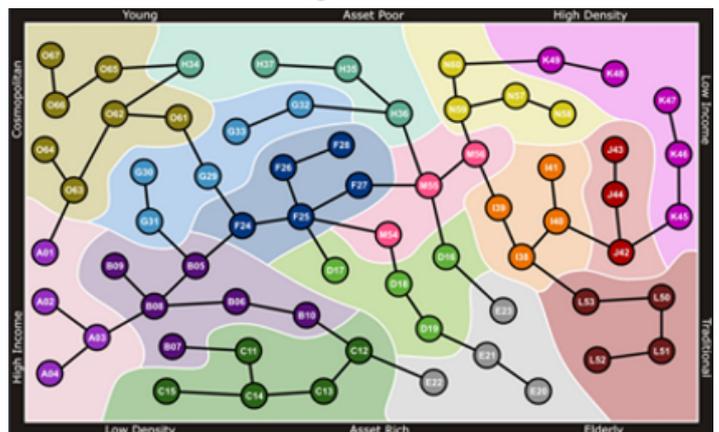

Resolution

The Mosaic UK classification is built by one of the world's most experienced consumer segmentation modelling teams. The latest version of Mosaic UK classifies all individuals, households or postcodes in the UK into a set of homogenous lifestyle types.

The Mosaic Family Tree

The Mosaic UK family tree illustrates the major demographic and lifestyle polarities between the groups and types, and shows how the Mosaic types relate to each other.

Mosaic Daytime provides small area estimates of the daytime population. This provides valuable information for retailers who rely on the surrounding 'weekday daytime population' for a significant proportion of their trade.

2012 mid-year estimates are available for each United Kingdom Output Area (OA) and Postal Sector. In addition, estimates are provided split down by the (residential) Mosaic UK groups and types. This allows existing Mosaic UK profiles of products and services to be combined with the 'small area' Mosaic Daytime population profiles to estimate market sizes.

Mosaic Daytime is created using the following key inputs:

- Experian's 2012 mid-year estimates of residential population at OA level.
- 2001 Census Origin-Destination (O-D) data relating to travel to work (and place of study for Scotland) at OA-to-OA level.
- See Travel to work questions asked across UK.

The Experian 2012 mid-year population estimates are split into sub-groups compatible with the 2001 Census O-D data, for example:

- All people aged 16-74 in employment (not including full-time students).
- All people aged 16-74 in employment (including full-time students).

For each sub-group, it is determined whether they are most likely to be:

- Located somewhere outside their home (or residential OA) during the day, or
- At home (or residential OA) during the day.

This takes into account the OA-to-OA 'Travel to Work' 2001 Census data.

For sub-groups which are likely to be away from home during the day, and where sufficient 2001 Census data on travel patterns exists, a reallocation from 'Origin OAs' to 'Destination OAs' is undertaken. The OA level Mosaic UK Profile of the 2012 population sub-group is allocated to each 'Destination OA' using probabilities derived from the 2001 Census O-D data. These estimated flows are then aggregated to 'Destination OA' level to create the OA level data. Finally, data is accumulated from OA level to Postal Sector level to create the Postal Sector level dataset.

What is the 2001 Census?

The Census is a government survey which is conducted every 10 years and covers the whole country. The information is collected on a single day. The government use the information to plan what local infrastructure is required in the future such as schools and hospitals

Why choose Census data from Experian?

Experian has extensive experience of handling the complexities of Census information. For the last 30 years, we have provided Census information to the public and private sector, processing information from all over the world, including the UK, United States, Western Europe, Australia and the Far East. Our demographic forecasting team provides population projection data to central and local government. This supports decisions on the provision of local services and amenities throughout the UK.

Experian is one of only six suppliers approved by the Office of National Statistics (ONS) following the release of Census 2001.

Based on the information provided, the UK Census organisations are satisfied that this organisation meets the agreed standards of data analysis and dissemination and is designated an Approved Supplier of value added Census output released in the last 50 years.

Approved Supplier

www.statistics.gov.uk/census

We were one of the first Census bureaux to create a complete national UK dataset by combining information from the ONS for England and Wales with data from the General Register Office (GRO) for Scotland and the Northern Ireland Statistics and Research Agency (NISRA).

Experian is a source supplier and partner to JICPOPS (Joint Industry Committee for Population Standards), whose purpose is to establish best practice for the provision of all demographic and geographic data in the UK.

Census Glossary of terms:

Age

Age is derived from the date of birth question and is the age at the person's last birthday

Ethnic Group

The Ethnic group question records people's perceived ethnic group and cultural background. Although the questions differ between the different parts of the UK, the same detailed codes are used across the UK to code the write-in responses.

Social Grade

Social Grade is the socio-economic classification used by the Market Research and Marketing Industries. Although it is not possible to allocate Social Grade precisely from information collected in the Census, the Market Research Society has developed a method for using Census information to provide a good approximation of Social Grade. Most output by Social Grade is for people aged 16 and over in households. They are classified by the Social Grade of their Household Reference Person.

Economic Activity

The Economic Activity questions apply only to people aged 16 to 74. They relate to whether or not a person was working or looking for work in the week before Census. The concept of Economic Activity is compatible with the International Labour Organisation (ILO) definition of economic status.

Dwelling

A household's accommodation (a household space) is defined as being in a shared dwelling if it has accommodation type 'part of a converted or shared house', not all the rooms (including bathroom and toilet, if any) are behind a door that only that household can use and there is at least one other such household space at the same address with which it can be combined to form the shared dwelling. If any of these conditions is not met, the household space forms an unshared dwelling. Therefore a dwelling can consist of one household space (an unshared dwelling) or two or more household space (a shared dwelling).

Tenure

The tenure of a household is derived from the response to the question asking whether the household owns or rents its accommodation and, if rented, from the response to the question asking who is the landlord.
